

CHANCHAI CHAKAM

Software Engineer | Full Stack Developer | Frontend Developer | Backend Developer
Bangkok, Thailand | Chanchaichakam1997@gmail.com | 093-940-5545 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Full Stack Developer with experience in building scalable backend systems, RESTful APIs, and web applications across multiple industries. Proficient in cloud technologies (AWS & Azure), AI integrations, and modern JavaScript ecosystem (Node.js, TypeScript, React, Next.js). Proven track record of optimizing workflows and working within Agile teams to deliver production-ready software.

TECHNICAL SKILLS

Languages: Languages: TypeScript, JavaScript (ES6+), Python, Go, SQL, X++

Backend: [Node.js](#), Express.js, Prisma ORM, Sequelize, Socket.IO, RESTful API, JWT

Frontend: React, Next.js, Vite, Zustand, Tailwind CSS, Material UI, Bootstrap

Cloud & Infrastructure: AWS (Elastic Beanstalk, S3), Azure (Cosmos DB, AI Document Intelligence), Firebase, Docker, PM2

Tools & Testing: Git, Jest, Swagger, Postman, Bruno, Winston Logging

WORK EXPERIENCE

Software Engineer (FullStack) | Thinkbit Co., Ltd. 2024 – Present

- Designed and developed scalable backend services and RESTful APIs using Node.js and TypeScript for enterprise systems.
- Built and deployed multi-cloud applications on AWS (Elastic Beanstalk, S3) and Azure (Cosmos DB) to ensure high availability.
- Integrated Azure AI Document Intelligence to automate government excise tax form processing workflows, reducing manual efforts.
- Developed real-time communication and notification features using Socket.IO across multiple platforms.
- Managed database layers and data modeling using Prisma ORM, Sequelize, MySQL, SQL Server and non SQL.
- Participated in code reviews, bug fixing, and collaborated with frontend developers, QA, and BAs in an Agile/Scrum environment.

Programmer (FullStack) | Vicky Enterprise April 2023 – May 2024

- Developed and maintained full-stack responsive corporate websites using React, Node.js, Express, Axios, and Bootstrap.
- Developed internal data analytics and reporting tools using MSSQL and SQL Server, enabling data-driven decision-making for management.
- Built a data-driven sales forecasting system to optimize annual inventory planning.

- Handled production-level troubleshooting, system updates, and general IT infrastructure support.

Programmer | Phatra Progress Co., Ltd. *March 2022 – November 2022*

- Customized and extended Microsoft Dynamics 365 (ERP) modules using X++ and C# based on specific business logic requirements.
- Developed and optimized complex business intelligence reports using SSRS (SQL Server Reporting Services).
- Provided technical support and system training for enterprise users to improve day-to-day operations and workflow efficiency.

PERSONAL PROJECTS

Personal Portfolio Web Application

- Designed and deployed a modern, multilingual responsive portfolio website optimized for performance and hosting on Vercel ([Link](#)).
- Built frontend components leveraging Next.js, TypeScript, Tailwind CSS, or equivalent modern styles for an interactive user experience.

AI-Powered Cryptocurrency Trading Bot

- Built an automated cryptocurrency trading bot integrating local LLMs (Ollama / Llama 3.1) to perform market sentiment and data analysis.
- Developed data pipelines using Python and Pandas, interfacing with Binance API and CCXT library for secure transaction execution.

EDUCATION

Bachelor of Engineering (Computer Engineering) *Graduated 2020*

Rajamangala University of Technology Isan, Surin Campus
