

CHANCHAI CHAKAM

Software Engineer | Full Stack Developer

Bangkok, Thailand | Chanchaichakam1997@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full Stack Developer with experience in building backend systems and web applications across multiple industries. Have worked with cloud technologies (AWS & Azure) and AI integration, mainly focusing on Node.js, TypeScript, and databases. Always looking to grow and contribute to a good engineering team.

TECHNICAL SKILLS

Languages: Node.js, TypeScript, Python, SQL (MSSQL, MySQL), X++, Go

Backend: Express.js, Prisma ORM, Sequelize, Socket.IO, RESTful API, JWT

Frontend: React 18/19, Next.js 15, Vite, Zustand, Tailwind CSS, Material UI

Cloud & Infrastructure: AWS (Elastic Beanstalk, S3), Azure (Cosmos DB, AI Document Intelligence), Firebase, Docker, PM2

Tools & Testing: Git, Jest, Swagger, Postman, Winston Logging

WORK EXPERIENCE

Software Engineer (Backend) | **Thinkbit Co., Ltd.** | 2024 – Present

- Built and deployed Multi-Cloud API systems on AWS and Azure for enterprise applications.
- Integrated Azure AI Document Intelligence to help automate excise tax form processing.
- Developed real-time notification features using Socket.IO across multiple platforms.
- Responsible for developing and maintaining APIOil, Classic Car, and LuckyTabien.

Programmer | **Vicky Enterprise** | April 2023 – May 2024

- Built internal reporting tools using MSSQL and SQL Server to help the management team access data more easily.
- Developed a sales forecasting system to support annual planning.
- Maintained corporate websites and helped with general IT support and troubleshooting.

Programmer | **Phatra Progress Co., Ltd.** | March 2022 – November 2022

- Customized Microsoft Dynamics 365 (ERP) modules using X++ and C# based on business needs.
- Built business intelligence reports using SSRS (SQL Server Reporting Services).
- Helped train and support users on AX/Dynamics 365 to improve day-to-day operations.

FEATURED PROJECTS

Oil Tracking & Tax Management API

- Built a Multi-Cloud backend for managing tax documents and inventory.
- Stack: Node.js, TypeScript, AWS Elastic Beanstalk, Azure Cosmos DB, Prisma ORM.

LuckyTabien — Lucky License Plate Marketplace

- Built a full-stack platform for buying and selling lucky license plates, with separate portals for customers and admins.
- Stack: Node.js, TypeScript, Express.js, MySQL, Sequelize, React.js, Material UI, Firebase Functions, Firebase Hosting.

Excise Classic Car Management System

- Full-stack system for vehicle registration and tax management with role-based access control (RBAC).
- Stack: React 18, Vite, Node.js, Firebase Admin SDK, AWS S3.

AI-Powered Cryptocurrency Trading Bot

- Built an automated trading bot that uses Local LLMs (Ollama/Llama 3.1) for market analysis.

- Stack: Python, Pandas, Bitkub API, CCXT.

EDUCATION

Bachelor of Engineering (Computer Engineering)

Rajamangala University of Technology Isan, Surin Campus | Graduated 2020
